Dhareeba – new online tax management portal

Background

General Tax Authority (the GTA) in Qatar will launch soon a new online tax management portal called "**Dhareeba**" in order to improve the tax administrative management process in the State of Qatar. The Dhareeba system will replace the currently used "Tax Administrative System" (TAS) for the tax filings for Financial Year 2020 and be more user friendly and efficient to handle tax registration, return filling and submission of applications.

KPMG Qatar has been invited to several Dhareeba trial registration training sessions, where we had the opportunity to test the system functionality, to be familiar with the registration process, to do trial registrations under several types of scenarios and to provide our feedback in relation to system functionality.

Recommendation for the companies

Based on our observation during the trial registration, we advice the companies to be prepared for Dhareeba registration and collect the documents and data to be required in advance in order to mitigate any upcoming administrative burden.

How can KPMG assist you?

KPMG in Qatar can help you in relation to the registration process in Dhareeba portal and make registration process smooth for your firm. If you have any questions or would like to discuss this directly, please contact us.
